

# EVANGELINE CACHINERO

artist biography/cv

---

## STATEMENT

**'There are many things that I credit for influencing my art, but the most important thing was giving myself the time to live life in order to have something to make art about.'**  
- Evangeline

I am a visual artist living on the Sunshine Coast, born in Wollongong and raised in Spain and America. A bit of a creative tornado, I'm always into new projects such as: artformyrent, artist by artist, Geline [digital art & illustration], monobrow creative and Explicitly Graphic.

I love working with mixed media, multimedia, social media and collaborating with other artists. Some of my favorite tools are raw canvas, paper, pencil, charcoal, enamel, acrylic, oil, oil pastels, markers, lace, a camera, books, boyfriends, a mac, felt tip pens, sharpies, masking tape, rulers, photographs, video and the internet.

When I write my juicy life bio it will have stories that will embarrass my family, piss off ex-boyfriends, may incriminate me in several countries for various reasons and question my decision-making abilities. [Watch this space].

---
